new product

3D Loop Device - Now Available: 2 mm Loops

The ZSK 3D Loop Device is designed to create bold, eye-catching 3D loop effects. Now, customers who require finer details can request a version capable of producing loop heights from just 2 mm up to 6 mm (**on request!**).

This new option expands the range of applications, making it possible to create more subtle textures and finer loop embroidery while maintaining the unique capabilities of the 3D Loop Device.
